Innovation Increase
Sustainably Double-Win

LINGDIAN Elevator persists in the principles of "mutual benefit, win-win cooperation, opening and communication, advance together hand in hand". It co-grows with partners to create more and more values for the societies. It fulfills double-win with broad partners. We have a large number of first-class professional talents in elevator industry with rational and proper staff configuration and production. Specialized talents perform their duties. We find continuous vigor for company development by superior service, high quality employees.

Concentrate Intelligence
Pull Together
凝聚智慧 通力合作

创新提升 持续共赢
 锂电电梯坚持互惠合作、开放沟通、携手并进的原则，不断优化合作模式，与公司员工共同成长，为社会创造更多价值，与伙伴共赢实现双赢。我们拥有行业内一流的专业人才，人员素质高、敬业爱岗、专业人才培养机制，我们以优质的服务和饱满的热情为员工的发展注入了源源不断的生命力。

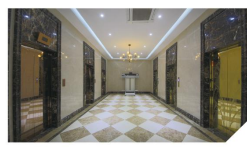

LINGDIAN ELEVATOR 08

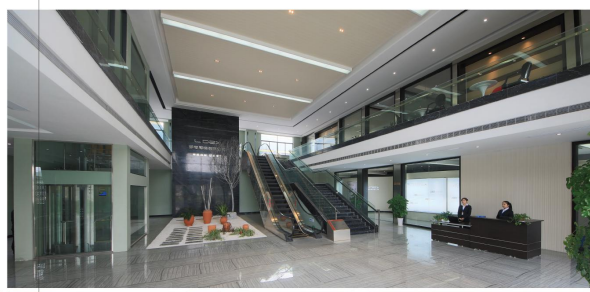

传承经典 永续传奇 LDE

Attractive & graceful from
inside to outside
内外兼修 方显格调

大成之作 井然有序
 锂电电梯贯彻国际先进理念，以简约、秩序、精致的布局方式，在接待厅、展示厅、办公区、休闲厅等区域，彰显国际环保理念，体现绿色办公环境。企业总部厂房规划、管理严谨、产线简洁、安静的工作环境，为企业良好的运营提供有利条件。

Orderly Masterpiece
 LINGDIAN Elevator absorbs advanced international ideas. It takes arrangement mode of concise outside and orderly inside. It responds international environment protection concept, shows green office environment in Reception Hall, Exhibition Hall, Office Area, Lobby etc. The enterprise executes factory zone plans. It creates a harmonious, rigorous, relaxing, peaceful work environment. It provides good business operation with beneficial conditions.

LINGDIAN ELEVATOR 06

ERP企业资源管理平台
ERP Enterprise Resource Management Platform

对企业物流、人流、财流、信息流进行一体化集成管理，从销售订单的生成、制造执行、数据管理、售后服务，在整个运转过程中实现信息共享，资源共用分配。

It forms integrated management to enterprise logistics, stream of people, financial flow and information flow. From sales order, manufacture to data management and customer service, it fulfills information sharing and joint distribution of resource in the whole sector and process.

IPD集成产品研发体系
IPD Integrated Products R & D System

建设跨部门团队，结构化流程和项目管理，使多个研发机构间合作，共同完成产品的设计、开发和试验工作，将更多创新转化为实用技术，提高产品的品质。

It constructs cross-department team, structural project flow, pipeline management. Multiple R & D institutions cooperate with each other. They jointly finish the product design, development and strategic policy. It converts more and more innovation to practical technology. It enhances the product quality.

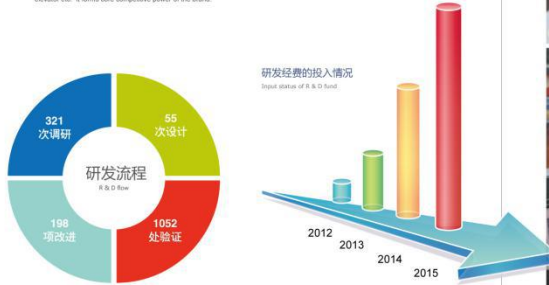

Technical Center Core Strength

技术中心 核心实力

持续创新 技高一筹
Sustainable Innovation More Skillful

菱电电梯以“创新技术”作为品牌的发展灵魂，吸引了众多电梯业内顶尖的技术人才，建立了领先的产学研研发中心，研发中心自主研发电梯控制技术、牵引技术和节能技术，先后研发成功了电脑控制电梯、无机房电梯等尖端技术，形成了品牌的核心竞争力。

LINGDIAN Elevator takes "innovative technology" as developing soul of the brand. It absorbs top grade technical talents among vast elevator industries. It establishes "Technical R & D Center" that leads elevator industry. "Technical R & D Center" focuses upon independent research and development of elevator control technology, traction technology and energy-saving technology. It has successfully and successfully researched into and developed top technologies such as computer-controlled elevator, machine room-less elevator etc. It forms core competitive power of the brand.

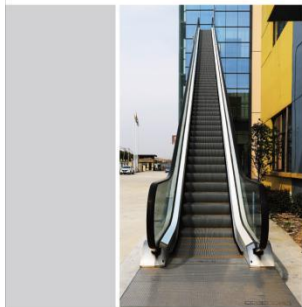

Win victory at height Extend dreams

高度致胜 延伸梦想

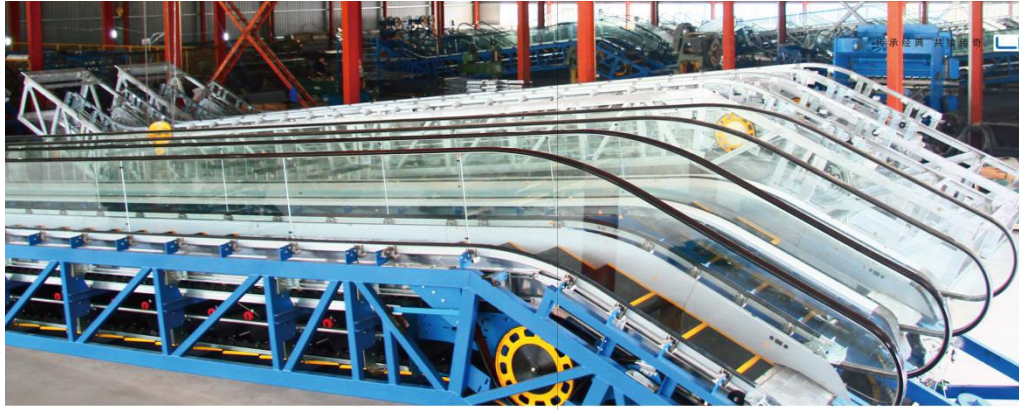

菱电电梯 108 米的电梯测试中心，拥有 8 个测试井道，安装有 7m/s 的超高速电梯，主要用于电梯新技术的研发和试验，大大提高产品研发速度与技术创新速度，为电梯电梯技术创新提供坚实的实验平台。

LINGDIAN 108m elevator testing center owns 8 testing wells. It installs 7m/s super high speed elevator. It is mainly used for researching into, developing and testing new elevator technology. It greatly enhances product R & D progress, technical renewal speed. It offers technical inspection platform to verify and practice new elevator technology.

自动扶梯测试
Escalator testing

Top technology Leading professionalism

尖端工艺 专业领先

精准高效 运筹帷幄

现代化的厂房，国际化的生产车间，一流的生产设备和生产设施，经过多次优化后流畅的生产工艺是生产优质产品的基地。公司拥有先进的数控生产设备及仪器，专业的技术人员，严格执行国家和国际标准和规范，对生产过程中的每一个工序都精心处理，确保对每位业主负责和满意。

Accurate & efficient Play the cards right

It owns modern factory houses, internationalized workshops, first-class production equipment. After multiple optimization, smooth manufacture craft & technology are foundation to produce superior elevators. The company has advanced escalator manufacture devices and instruments, professional technicians. It strictly executes national and international testing standards. It carefully tests every work process in production. It thus ensures superior escalator quality and reputation.

LINGDIAN ELEVATOR 20

Top equipment Keep in pace with advanced international standard

精尖设备 接轨国际

先进工装设备 智能唯见高效

Advanced tooling equipment Effective & intellectual

菱电电梯精心打造符合人居生活的快捷运行方式，满足了各类保障房、旧楼改造以及私宅的多样需求，为空间造家的观念。LINGDIAN passenger elevator goes all out to create prompt transport mode that accords with human habit life. It satisfies requirements from various affordable housing, transformed housing, private housing. It feels like at home.

菱电电梯引进意大利萨瓦尼柔性钣金生产线，先进的自动化喷涂生产线，激光切割机，数控多工位冲床等先进设备，追求每一道工序，数字的精准处理，丰富的经验累积，专业设计人员对于品质安全精确的准确把握，高素质生产员工一丝不苟的辛勤付出，每一项环节都会受到严格的人员把控优化的保障。

LINGDIAN Elevator invests in large sum of capital to introduce advanced equipment such as Italian Salvarini flexible metalworking production line, advanced and automatic painted production line, laser cutter, digital multi-station punch press etc. It is harsh to every work process. It gets years' fighting procedures and accumulates rich experiences. Professional designers precisely grasp quality safety spirit. High quality production workers adhere to persistently improving work styles. Every LINGDIAN elevator shows the most superior properties to the public.

LINGDIAN ELEVATOR 18

Leading quality comes from high technology

领跑品质 源于科技

传承经典 共续传奇 LDE

安全 Safe

保障使用者的人生安全是产品的第一要务，也是电梯关注的重点。我们使用的安全部件科技包括：数字闭环控制的无齿轿门系统；精确的轿厢定位技术；电气安全保护装置；“急停按钮”装置；红外光幕等，为使用者提供安全保障。

It gives first priority to ensure the users' safety. It is also key focus of LINGDIAN Elevator. Our safety guarantees technologies include digital closed-loop control non-tooth door system, accurate car positioning technology, elevator self-diagnostic technology, hammer forced closing device, infrared ray light curtain etc. It safeguards the users' security.

智能 Intellectual

为电梯的智能运行、智能化用梯系统的服务效能，新电梯运用多种智能技术：微机运行和运行控制技术；智能群控算法技术；交通流量预测技术；高度集成化的微机网络控制系统；通行数据传感技术等，我们致力为用户提供最高效的全梯式服务。

In order to ensure intellectual elevator operation, it fully optimizes service efficacy of elevator system. LINGDIAN Elevator utilizes multiple highly intellectual technologies, micro-computer operation and traction transmission technology, intellectual group supervision system, traffic flow database technology, highly integrated micro-computer network control system, serial data transmission technology etc. We're our best to provide broad passengers with the most effective gold-collar services.

绿色 Green

新电梯搭载了多项领先的环保高新技术，采用世界领先的永磁同步无齿曳引技术；数字变频技术；能量回馈系统；数字群控技术，先进的节能技术组合，具有节能环保、合理节约能源等卓越性能，成就电梯领域的节能典范。

LINGDIAN Elevator concentrates upon multiple leading environment protection top and new technologies. It applies the world's advanced energy saving and environment protection technologies such as permanent magnet synchronous and gearless traction technology, digital variable frequency technology, energy feedback system etc. It combines with advanced control technology. It has outstanding properties such as energy saving, environment protection, rational saving of energy etc. It fulfills a model example of energy saving in elevator field.

舒适 Comfortable

秉承电梯的产品理念，创新性使用了轿厢位移检测技术；双重减振功能；全数字化门机控制系统；大量变频技术等，保障舒适性运行的水平，更舒适、更可靠，为乘客打造舒适舒适的旅程。

It adheres to product ideas of LINGDIAN Elevator. It inventively uses car shift leading technology, double shock-absorbing function, fully digital door machine control system, Variable frequency control system etc. It enhances elevator properties to a new level. It is more smooth, reliable and comfortable. It creates a peaceful and comfortable travel space for broad passengers.

Strategic arrangement Global vision

战略布局 全球视野

战略布局 全球视野

国内网络 Domestic network

经过多年发展，新电梯建立了完善的营销服务体系，在全国各省自治区建立了数十家直属分公司、服务中心和配件中心，为不同的客户带来顶级水准的服务。

Through the years' development, LINGDIAN sets up the perfect sale service network. It establishes dozens of directly-affiliated branches, service centers, parts centers in various domestic provinces and autonomous regions. It brings about top-standard services for different clients.

传承经典 共续传奇 LDE

国际网络

新电梯建立了遍布全球的营销网络，服务于一体的庞大营销网络，能及时、全面地为全球市场和用户提供最优的产品和最满意的服务。不断将自主创新成果推向市场前线，赢得了海外市场的青睐和信赖；相继把新电梯销往印度、越南、土耳其、南非等国家和地区。我们致力于将新电梯打造成国际一流品牌。

International network

LINGDIAN Elevator establishes world-wide strong sales networks that integrates sales and service into one. It can timely and comprehensively provide global markets and users with the most superior products and the most satisfactory after sale. It keeps pushing forward individual innovation fruits to market frontline. It wins great favor and deep trust from overseas markets. It has successfully exported LINGDIAN elevators to India, Vietnam, Turkey, South Africa etc. We are engaged in building up a first-class international LINGDIAN brand.

LINGDIAN ELEVATOR 26

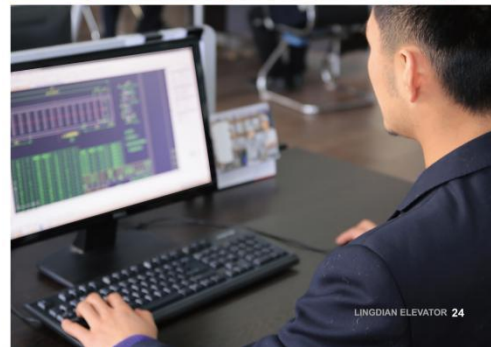

Precision foundry fulfills fine elevators

精密铸造 成就精品

匠心之作 魅力尽显
Original & charming

现代化的厂房 一流的生产设备和生产设施, 经过多次优化后运转的生产工艺是生产优质产品的基础。公司拥有先进的电梯制造检测仪器, 专业的检测人员, 严格执行国家和国际检测标准, 对生产过程中的每一个工序进行精心检测, 确保产品的优良品质和美誉度。

It owns modern factory houses, internationalized workshops, first-class production equipment. After multiple optimization, smooth manufacture craft & technology are foundation to produce superior elevators. The company has advanced escalator manufacture detectors and instruments, professional technicians. It strictly executes national and international testing standards. It carefully tests every work process in production. It thus ensures superior escalator quality and reputation.

LINGDIAN ELEVATOR 24

Settle it at one go one-stop solution

一步到位 一站解决

服务的核心不是过程
而是结果

Significance of service is result
It is not process

凌电电梯一直这样认为, 一份销售合同的结束不是工作的终结, 而是另一份工作的开始。公司始终秉持“产品品质最大化价值”服务理念, 重视为客户提供完美和高标准的服务保障为客户创造最大化的满意。

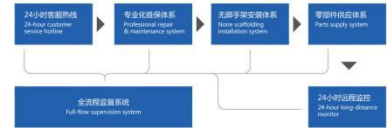

LINGDIAN Elevator always believes that completion of a sales contract is not end of work. It begins another work. It persistently sticks to service principle of "maximum value of product quality". It thinks highly of providing best clients with perfect and high standard service guarantee. It creates maximum satisfaction for expensive customers.

LINGDIAN ELEVATOR 28

凌电公司拥有先进的技术力量, 专业的服务团队, 确保在安装、维护、修理、保养等方面为客户提供最专业的服务。同时, 凌电公司还为客户提供一站式的解决方案, 确保客户在最短的时间内得到满意的解决方案。

LINGDIAN Company owns skilled and high quality installation, repair and maintenance team with strong professionalization. It strictly accords with the company's perfect service management system requirements. It provides the users with high standard before, mid and after sale service with high standard. As long as the clients require, LINGDIAN Elevator satisfies or supplies the best solution plan within the shortest time possible.

Passenger elevator 乘客电梯

乘客电梯是电梯行业打造符合人们生活的快速运输方式，满足了各类保障房、旧楼改造房以及私宅的品质需求，为业主营造家的感觉。LINGDIAN passenger elevator goes all out to create prompt transport mode that accords with human habit life. It satisfies requirements from various affordable housing, transformed housing, private housing. It feels like at home.

Observation 观光电梯

以先进的控制技术为依托，高效服务于城市高楼大厦之上，以现代美学设计理念打造的轿厢造型，风格多样，与建筑和谐相融，赋予了建筑美感和灵魂。It is backed by advanced control technology. It effectively travels in city building. Car motif takes modern aesthetics as design principle with different styles. It harmoniously combines with the building. It is endowed with flexible and magical charm and mythic.

Bed 病床电梯

充分考虑医院环境的特殊性，采用世界尖端的模块化电脑控制技术，实现轿厢分选、运行流畅、乘坐舒适。It fully considers peculiarity of hospital environment. It brings about world's top grade modular computer control technology. It brings about smooth elevator brake and operation. The patients feel comfortable in travel.

Home 家用电梯

秉承世界私人电梯领域先进技术，借鉴国际经典设计理念，为您的家注入无限优雅与尊贵。It inherits top technology in the world's private elevator field. It adheres to classic international design concept. It dedicates deluxe house in your home art. Your house shows noble and elegant quality from inside to outside.

Freight 载货电梯

充分应用先进变频控制技术，突破传统的控制模式，结构紧凑，运行方便，在信号传输、运行控制上实现质的飞跃，使系统更稳定可靠、噪音更低。It gives a full use of fully computerized control technology. It adopts well-developed control system with simple structure, convenient repair & maintenance. It fulfills a qualitative leap regarding signal transmission, running control. It brings about the more stable, reliable system with the lower noise.

Automobile 汽车电梯

采用高度成熟的变频控制技术精确调速控制，保证电梯上下运行中的平稳、广泛适用于停车场、公共建筑等场所。It applies highly well-developed variable voltage, variable frequency control technology with accurate speed regulation and control. It ensures smooth up & down elevator operation. It is widely applicable for parking lot, public building etc.

Debris 杂物电梯

采用先进的控制系统和轿厢的创新设计，具有安全可靠、运行平稳、操作方便等特点，满足食品、餐具、日用品、仪器、药品、图书等用途。It applies advanced control system, technological design with novel structure. It features as safe, reliable, smooth running, convenient operation etc. It satisfies delivery of food, strong ware, daily products, instrument, medicine, books and so on.

Escalator 自动扶梯

采用国际先进技术，融合先进设计理念，生产制造出具有运行平稳、噪音低、经久耐用的变频自动扶梯，宽广的结构、精致的梯路、强劲的动力、外观精美，带给您舒适的乘坐体验。It applies advanced international technology. It combines with advanced design concept. It produces high quality and durable LINGDIAN escalator with smooth operation, low noise. It has fine and exquisite structure, advanced stairway, delicate belt and attractive outline. It provides vast passengers with brand-new travel experience.

Moving walk 自动人行道

自动人行道不能解决人们巨大的运输问题，又能满足长距离步行和运送行李、婴儿车、购物车、残疾人等，是各大机场、大型超市、展览中心及运输中转站的最佳解决方案。LINGDIAN moving walk satisfies transport problem of large passenger flow. It meets the requirements of long distance walk, delivery of luggage cart, baby's cart, shopping cart, vehicle for disabled etc. It is your first-choice solution plan in various big airports, large mall supermarkets, exhibition centers, transport interchange stations.
