Passenger Elevator
乘客电梯

中外合资 菱电电梯有限公司
LINGDIAN ELEVATOR CO., LTD.

菱电简介 LINGDIAN INTRODUCTION

菱电电梯有限公司是由香港菱电国际有限公司增聘开办的现代化专业电梯制造企业，是一个用技术引领全球电梯业发展的领军者。在经济快速发展的中国，选择了长三角地区（宁波）作为企业发展领地，用成熟的技术、卓越的品质、优秀的服务，为人类创造安全舒适的品质生活。

菱电电梯吸收国际先进理念对厂区进行合理规划，分别设立行政中心、研发中心、电梯检测中心、电梯制造中心、物流中心等厂区，是一家集研发、设计、制造、销售、安装、维保、物流于一体的大型专业电梯制造企业，总投资达三亿元人民币，目前第一期投入约亿元人民币，年总产能（共）达12000台以上。

通过对全球一流的电梯技术的传承，结合世界的先进电梯设计理念，为客户打造安全、可靠、卓越的电梯精品。公司已形成完善的产业体系，在技术上充分消化吸收，自主研发第二代先进材料和工艺，硬件上达到世界一流水准，产品涵盖观光电梯、小机房乘客电梯、无机房乘客电梯、家用电梯、别墅电梯、汽车电梯、杂物电梯、自动扶梯、自动人行道等十多种产品。菱电电梯注重国际化的产品标准和操作经验为中国的地标建筑提供优质服务，我们将致力于打造世界一流的电梯制造基地，为市场提供真正超越前所有者的产品和服务。

LINGDIAN Elevator Co., Ltd. has been established by Hongkong LINGDIAN Elevator International Co., Ltd. by forms of capital-increase merger. It is a modern and professional elevator manufacture enterprise. It is forerunner in elevator industry that firstly uses high-tech to promote global elevator industry development. In China with high speed economic growth, it chooses Changjiang lower Delta Area (Ningbo) as the enterprise developing headquarters. It applies well-developed technology, outstanding quality, excellent services to create a secure, comfortable, high-quality life for human beings.

LINGDIAN Elevator absorbs advanced international ideas to rationally plan the factory zones. It respectively sets up Administration Center, Research & Development Center, Elevator Testing Center, Elevator & Escalator Manufacture Center, Logistic Center etc. It is a large-size specialized elevator manufacture enterprise that integrates elevator research, development, design, manufacture, sales, installation, repair, maintenance, transformation into one. Total investment is 300 million RMB. First-phase investment is 200 million and eight thousand RMB. It can annually produce over 12,000 sets of various elevators and escalators.

The company adheres to the world's first-class elevator technology and combines with the world's pioneer elevator design concept. It produces safe, reliable, outstanding elevators for broad clients. The company currently forms the perfect product system. Regarding technology, it fully keeps in pace with international first-class technology in Europe, America, Japan etc. It applies imported original parts and latest advanced sector materials, craft & technology. In the aspect of hardware, it attains the first-class standard in elevator industry. The products cover passenger elevator, small machine room passenger elevator, machine room-less passenger elevator, observation elevator, hospital elevator, home elevator, height elevator, automobile elevator, dumbwaiter, escalator / moving walk etc. with over 10 varieties. LINGDIAN Elevator provides Chinese landmark buildings with superior services by internationalized product standard and operation experiences. We are engaged in producing the world's first-class elevator manufacture base. It offers the markets the excellent elevators and services that satisfy and surpass the clients' requirements.

Green motives Energy-saving & environment -protection

绿色动力 节能环保

Passenger elevator executes real-time adjustment to motor current according to load change through advanced permanent magnet synchronous & gearless traction technology and digital variable frequency technology. It greatly reduces average current of motor operation. It thus lowers down power consumption. Compared with traditional geared elevator, it saves 50% of energy. Compared with hydraulic elevator, it saves 60% of energy.

先进的永磁同步无齿轮牵引技术和数字变频技术令乘客电梯能效显著优化并节约电机电流。可大大降低在电机运行中的平均电流。从而降低能耗。与传统有齿轮电梯相比，节能50%，与液压电梯相比，节能60%。

能量回馈技术 Energy feedback technology

基于PWM控制的高性能回馈技术，可将原本通过制动电阻消耗的再生电能，无污染回馈电网供其他用电设备。比普通VVVF电梯平均节能20%以上。完全满足国家相关电能质量标准。

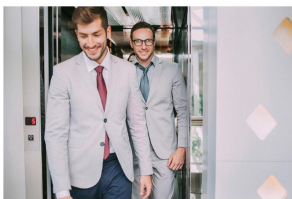

Based upon double-PWM controlled highly energy-saving energy feedback technology, it pollute-free & back basic regenerative green electric energy that shall be originally consumed to energy consumption resistance to power grid. It then supplies other power equipment. Complied with ordinary VVVF elevator, it energy saves over 20% of energy. It completely satisfies the relevant national electric energy quality standard.

- 
高效节能
 Effective and energy-saving
- 
绿色环保
 Green environmental protection
- 
节省空间
 Space-saving
- 
稳定可靠
 Stable and reliable
- 
低噪音
 Low noise

LED自动照明 LED automatic lighting

新LED照明装置，光线柔和明亮，温度低，无辐射，有利于长期使用，且系统在电梯空闲未使用状态下自动熄灭，安全、高效、无辐射，有利于长期使用，且系统在电梯空闲未使用状态下自动熄灭，安全、高效、无辐射，有利于长期使用，且系统在电梯空闲未使用状态下自动熄灭，安全、高效、无辐射，有利于长期使用。

LED lighting device in elevator car is soft and bright in lighting, low in heat. It is safe and effective without any radiation. It is good for long-time effective use. If elevator is not used, system goes automatically. It is green and environment protection.

高效、高速、高端的智能化设计 Effective, high speed and high end intellectual design

垂直交通领域，高效至上。为充分化电梯梯系的运行效能，乘客电梯通过采用全电脑智能化控制系统，实现多楼层、智能化、智能化智能管理，智能运行实时监控，为乘客提供最高效的乘梯式服务。

Effective is first in the field of vertical transport. In order to fully optimize service efficacy of elevator system, LINGDIAN Elevator fully intellectual management such as multi-microcomputer, modular network control etc. through fully computerized intellectual control system. It instantly feeds back the elevator running conditions. It provides vast passengers with the most effective and comfortable service.

远程监控功能 Long-distance monitor functions

通过有线或无线通信模块，可在监控中心对电梯运行状况和电梯内乘客情况进行实时监控，使故障在发生前排除，确保乘客安全。

Through wired or wireless communication module, it executes real-time monitor to elevator running conditions and passengers' conditions in elevator through long-distance monitor center. It removes any hidden danger before it actually happens. It thus ensures the passengers' safety.

Intellectual technology, outstanding quality 智能科技 卓越品质

永磁同步电机（PM）门调速系统 Permanent magnet synchronous motor (PM) door speed-regulation system

采用永磁同步电机直接驱动门机，减小门机体积，实现20-240Hz高速数字信号处理，速度反馈的实时控制，变频变频（VVVF）调速系统，三位一体，确保每一次开关门，即能严格按照最佳速度曲线与力矩实现高速启动，实现最佳启动的平滑与开关门力变化的数据，智能控制开关门门机，使运行更平滑、更高效、更安全、更可靠。

It applies permanent magnet synchronous motor directly driven door machine to reduce door machine bulk. It integrates 20-240Hz high speed digital signal processing, speed and current double closed-loop feedback control, variable voltage variable frequency (VVVF) speed regulation system into one. It ensures that door opening / closing each time strictly accords with the best speed curve to fulfil perfect actions.

It collects door weight at various locations, opening / closing resistance change data to intelligently adjust door opening / closing torque. It brings about the more smooth, effective, secure and reliable actions.

IC卡管理系统 IC card management system

用户可自由添加各种操作功能，满足各种人性化设计下的安全需求，有效保护电梯所在建筑物的用户安全，减少电梯的无效运行，更为方便特殊人群的使用。

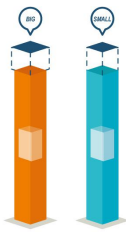

Users can freely add various operation functions. It satisfies safety requirements under various human-controlled designs. It effectively protects the users' safety in elevator buildings. It reduces invalid elevator operation. It is more convenient for use of special people.

Small machine room passenger elevator
小机房乘客电梯

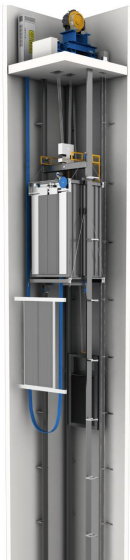

以小见大，智能超群
Intellectual & outstanding
small machine room
saves big spaces.

普通小机房电梯以小机房电机和柜型化控制柜电机布置紧凑，实现了机房的小型化，与传统有机房电梯相比，有效降低了机房高度，机房面积也得到了有效的节约。

LINGDIAN small machine room elevator brings about a more compact machine room arrangement through small machine and thin control cabinet. It fulfills a small machine room. Compared with traditional elevator with machine room, it effectively reduces machine room height. It also efficiently saves machine room area.

小机房乘客电梯
Small machine room passenger elevator

Machine roomless passenger elevator
无机房乘客电梯

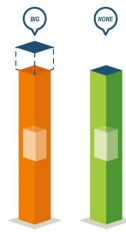

无机房乘客电梯
Machine roomless passenger elevator

责任心，未来心
Responsible core brings
about a bright future!

普通无机房电梯产品深环保理念，节能环保，节约建筑面积，创意设计自由，能充分体现绿色人文理念。与传统有机房电梯相比，有效降低了机房高度，机房面积也得到了有效的节约。

LINGDIAN machine roomless elevator knows very well environment protection concept. It saves energy and reduces consumption. It saves building area. It enhances design freedom. It gives a full play of green human ideas. Compared with same load level generated elevator, it saves 20% of electric energy. 10% of building area. LINGDIAN Elevator breaks through a wall of machine room by traditional elevator. It provides limited spaces in modern building with little investment.

Bed elevator
病床电梯

温馨关怀，让您倍感美好的人性世界
You feel very much this
wonderful human-centered
world through our sweet caring!

普通病床电梯，不仅用于运送乘客，还因使用的特殊而对电梯的运行速度有更高的要求。普通病床电梯，普通电梯的运行速度，运行平稳、舒适。

LINGDIAN hospital elevator not only delivers passengers. Because of its special use, it has special and strict requirements to use and functional properties of elevators. LINGDIAN hospital elevator accurately controls elevator running speed. It is smooth and comfortable in operation.

LINGDIAN hospital elevator chooses upon human-centered design. It fully optimizes car structure. It satisfies the clients' use requirements for maximum extent. It creates a peaceful and graceful space for broad passengers.

标准轿厢配置
The standard car configuration

- 轿 顶：镜加不锈钢饰面，亚克力透光板，吸顶灯
- 轿 壁：发纹不锈钢
- 扶 手：不锈钢扶手(两侧)
- 地 毯：PVC
- Ceiling: Mirror surfaced stainless steel made decorative cover, acrylic light panel, ceiling lamp
- Car wall: Hairline stainless steel
- Handrail: Stainless steel flat handrail(Two sides)
- Floor: PVC

残疾人专用按钮盒 (选配)
Special operation box for disabled (Optional)

Super modern
first-class visual
enjoyment

超现代化一流视觉享受

It has fine and exquisite outline model, luxurious inner car decoration. 3 systems apply a full set of super first-class modern configuration. It invisibly shows extraordinary status and remarkable grade through distinctive styles of human-centered interface setting.

精美的外观造型，富丽的轿厢内饰，三大系统均采用全套超一流的现代化配置，以及独特的人性化界面设置，无形中彰显出您的不凡身份和尊贵地位。

Observation
elevator
观光电梯

乘客赏景 建筑承载梦想

The passengers pleasantly appreciate beautiful scenes in elevator, building bears your great dreams.

观光轿厢采用先进的VVF变频调速系统，通过传动方式和制动系统，按照人体生理需求，设计出最佳运行曲线，让观光电梯在启动、加速、减速、停站过程中始终保持平稳舒适乘坐体验。轿厢玻璃采用超厚钢化玻璃，钢化玻璃具有着精致的流动美感和完美的视觉穿透力，带给您舒适的乘坐体验，让您在短暂的路程中获得愉悦的感受。

LINGDIAN observation elevator applies the advanced VVVF frequency, voltage, speed regulation device, guarantees drive mode, shock-absorbing technology. It designs the best turning curve according to human-body physiological requirements. LINGDIAN observation elevator keeps smooth and comfortable travel enjoyment and visual aesthetics during start, acceleration, deceleration, parking process. It increases elevator quality to a new level. LINGDIAN observation elevator has delicate visual aesthetics, perfect & comfortable travel. It provides you with smooth and comfortable travel experience. Therefore you get pleasant enjoyment in short journey.

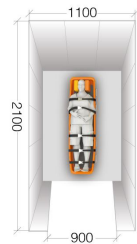

Stretcher
elevator
担架电梯

人性设计，功能丰富
Human-centered designs,
Rich functions

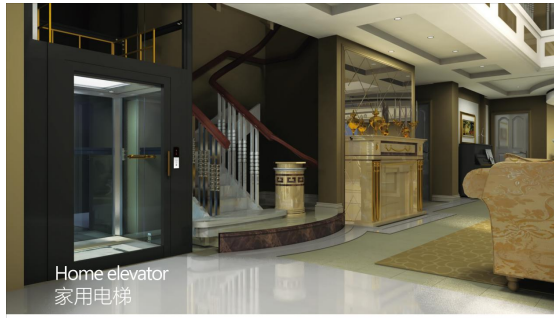

满足紧急运送病人的需要，采用人性化设计，配置整套实用设备，运行平稳舒适，轿厢空间宽敞，不仅具有普通载客功能，还可容纳担架，同时还为人们搬运大件家具提供了方便。

It satisfies the needs to emergency patient delivery. It applies human-centered design. It is equipped with a whole set of top-grade equipment. It is smooth and comfortable in travel. Elevator car is large and broad. It has ordinary passenger transport functions. Furthermore, it can hold stretcher. It offers great convenience for people to deliver large furniture.

深度达2100mm
方便救援担架直接出入。

Depth reaches 2100mm.
It is convenient for direct entry / exit of rescue stretcher.

Home elevator
家用电梯

完美生活，舒适惬意
Perfect, comfortable & relaxing life

人性化设计，提高生活品质空间，科技时代，提升生活品质，本公司家用电梯，让生活更方便，更有情趣。在狭小空间可以发挥超凡的性能，无死角的顶部高度，与新款住宅都可以匹配。您贴心的轨道安装系统，更快更便捷地安装。此外，平层自动水平高度调节系统让您的乘坐更舒适，更完美地生活。

Human-centered design decorates your noble life space. We enhance your life quality in the times of high and new tech. LINDOAN home elevator brings about a higher grade and a more convenient life for you!

It gives a full play of outstanding properties in limited space. It is machine room-less. Extremely small top-floor height can match with all kinds of old/new residences. Relying on standard rail insulation system, it can be installed more quickly and conveniently. In addition, smooth start and leveling system bring about the more stable elevator operation, the more comfortable travel.

家用电梯的特点
Features of home elevator

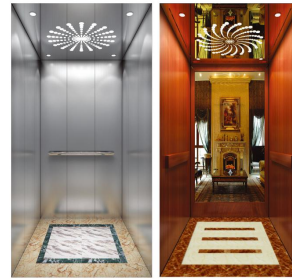

- ①无传统机房，不增加建筑成本
 - ②非凡设计：家用电梯特殊设计的轿门结构
 - ③VAVF驱动技术，本公司专利曳引系统
 - ④家用曳引系统，即定即动，载重物可不承受力
 - ⑤全私乘轿厢20V单相电机专用主机
 - ⑥符合中国国标，符合欧洲标准，有美国UL/ULC/CE认证
 - ⑦符合家用电梯标准GB/T21739-2008
- ①It needs no traditional machine room. It does not increase building cost.
- ②Home elevator specially designed gentry structure with 2:1 traction ratio.
- ③VAVF drive technology, this company's special-purpose micro-computer panel control.
- ④It applies sliding guide shoes.
- ⑤Special-purpose traction machine frame is fixed in guiderail. Building does not bear any force.
- ⑥Inset 220V single-phase home elevator special-purpose host.
- ⑦It has national special-purpose door machine, synchronous gear belt drive. It passes TUV & CE Certification.
- ⑧It accords with national standard GB/T21739-2008 of home elevator.

LDC 301

面板：拉丝不锈钢（标准）
可选材料：拉丝钛金/玫瑰金

Panel: Hairline stainless steel (Standard)
Optional material: Mirror / titanium gold / rose gold

LDJ 301

LDJ 302

▶ LDJ 301 标配 Standard

吊顶：镜面不锈钢，亚克力，LED灯
轿壁：拉丝不锈钢
扶手：镜面不锈钢圆扶手
地板：PVC
Ceiling: Mirror stainless steel, acrylic, LED lighting
Car wall: Hairline stainless steel
Handrail: Mirror stainless steel round handrail
Floor: PVC

▶ LDJ 302 选配 Optional

吊顶：钛金镜面不锈钢，亚克力，LED灯
轿壁：木皮饰面
扶手：木皮圆扶手
地板：PVC
Ceiling: Titanium gold mirror stainless steel, acrylic, LED lighting
Car wall: Wood-grain steel plate, safety laminated glass
Handrail: Flat wooden handrail
Floor: PVC

LDJ 303

吊顶：玫瑰金镜面不锈钢，透光玉石，LED灯
轿壁：玫瑰金拉丝不锈钢，玫瑰金镜面不锈钢
扶手：镜面不锈钢圆扶手
地板：PVC
Ceiling: Rose gold mirror stainless steel, light-emitting marble, LED lighting
Car wall: Rose gold hairline stainless steel, rose gold mirror stainless steel
Handrail: Mirror stainless steel round handrail
Floor: PVC

▶ LDJ 304 选配 Optional

吊顶：烤漆木皮，亚克力灯罩，LED灯
轿壁：烤漆木皮，黄岩板
扶手：无
地板：PVC
Ceiling: Baked enamel wood sheet, acrylic hood, LED lighting
Car wall: Baked enamel wood sheet, beauty-care mirror
Handrail: None
Floor: PVC

Passenger elevator
car design
乘客电梯轿厢设计

▼ LDJ 008 选配 Optional

吊顶：镜面不锈钢板，亚克力透光板，LED灯
轿壁：中网隔面不锈钢，两向木皮饰面
扶手：无
地板：PVC
Ceiling: Mirror stainless steel frame, acrylic light-emitting panel, LED lighting
Car wall: Central mirror etching titanium-plated, aluminum-gold back-to-back stainless steel on both sides
Handrail: None
Floor: PVC

▼ LDJ 009 选配 Optional

吊顶：钛金镜面不锈钢板，亚克力拱形透光板，LED灯
轿壁：中网隔面制钛钛，两向香槟金钛不锈钢
扶手：钛金与实木组合扶手
地板：PVC
Ceiling: Titanium gold mirror stainless steel frame, acrylic arch light-emitting panel, LED lighting
Car wall: Central mirror etching titanium-plated, aluminum-gold back-to-back stainless steel on both sides
Handrail: Titanium gold and solid wood combined handrail
Floor: PVC

▼ LDJ 010 选配 Optional

吊顶：烤漆钢板，中网透光玉石
轿壁：镜面不锈钢钛钛金字饰面板，镜高不锈钢
扶手：无
地板：PVC
Ceiling: Baked enamel steel plate, central light-emitting marble
Car wall: Stainless steel mirror, titanium gold plated engraved panel, stainless steel mirror plated with black titanium, stainless steel mirror plated with titanium gold
Handrail: None
Floor: PVC

▼ LDJ 011 选配 Optional

吊顶：烤漆钢板，中网透光玉石，LED灯
轿壁：后壁：红橡木木皮，皮革饰面，镜面不锈钢
侧板：钛金钛钛，镜面不锈钢玫瑰金，钛金钛钛
扶手：钛金钛钛
地板：PVC
Ceiling: Baked enamel steel plate, central gold-foil, ceiling lamp, LED light on four sides
Car wall: Rear wall / Anigre decoration face, leather hand-rod, stainless steel mirror plated with rose gold insertion strip
Side wall / Stainless steel mirror plated with rose gold, leather hand-rod, stainless steel mirror plated with rose gold insertion strip
Handrail: Oak handrail
Floor: PVC

Passenger elevator car design 乘客电梯轿厢设计

▼ LDJ 004 选配 Optional
 吊顶: 镜面不锈钢铝框, 中央亚克力透光板, LED灯
 轿壁: 原纹镜面, 镜面蚀刻出图案金组合
 扶手: 钛金与亚克力棒组合
 地板: PVC
 Ceiling: Mirror stainless steel frame, central acrylic light-emitting panel, LED lighting
 Car wall: Combination of black titanium mirror, mirror etching decorative gold combination
 Handrail: Combination of titanium gold and acrylic rod
 Floor: PVC

▼ LDJ 005 选配 Optional
 吊顶: 钛金镜面不锈钢铝框, 亚克力拱形透光板, LED灯
 轿壁: 钛金, 镜面, 蚀刻, 发纹, 和纹
 扶手: 圆木与钛金组合
 地板: PVC
 Ceiling: Titanium gold mirror stainless steel frame, acrylic arch light-emitting panel, LED lighting
 Car wall: Titanium, mirror, etched, hairline, irregular grain
 Handrail: Combination of round wood and titanium gold
 Floor: PVC

▼ LDJ 006 选配 Optional
 吊顶: 镜面不锈钢铝框, 亚克力拱形透光板, LED灯
 轿壁: 发纹不锈钢, 镜面蚀刻不锈钢
 扶手: 不锈钢单管
 地板: PVC
 Ceiling: Mirror stainless steel frame, acrylic arch light-emitting panel, LED lighting
 Car Wall: Hairline stainless steel, mirror etched stainless steel
 Handrail: Stainless steel tube
 Floor: PVC

▼ LDJ 007 选配 Optional
 吊顶: 镜面不锈钢铝框, 中间圆形白色透光板, 两侧长方形半透明射灯柱
 轿壁: 发纹不锈钢, 镜面蚀刻不锈钢
 扶手: 不锈钢圆扶手
 地板: PVC
 Ceiling: Mirror stainless steel frame, Central arch white light-emitting panel, rectangular hollow transparent light pole on both sides
 Car Wall: Hairline stainless steel, mirror etched stainless steel
 Handrail: Stainless steel flat handrail
 Floor: PVC

Perfect function
完美功能

标准功能 Standard Function

	应急车灯 Emergency car lighting	得电时, 自动打开应急车灯。 Emergency car lighting automatically activated once power fails.
	五向对讲 Five-way intercom	通过对讲, 可以呼叫、接听、电梯机舱、井道通话、查看楼层及门区。 Through intercom, you can call, answer, elevator machine room, shaft and monitor doors through walkie-talkie.
	紧急返回 Emergency return	如果电梯在运行中, 乘客按下紧急返回按钮, 所有呼叫将被取消, 电梯将直接返回楼层。 If you start by touch in main landing or monitor shaft, all the callings will be canceled. The lift directly and immediately drives to the designated rescue landing and automatically opens the door.
	节能运行 Energy saving	当乘客在轿厢内没有发出任何指令时, 轿厢将在到达楼层前自动停止, 等待乘客指令。 If there is no calling or command signal within the stipulated time, the car fan and lighting will be automatically closed in order to save the energy. 节能运行模式, 乘客在轿厢内没有发出任何指令时, 轿厢将在到达楼层前自动停止, 等待乘客指令。 The lift can be called to resume working after finishing the service through the touch switch and automatically waits the passengers.
	节能待机 Energy saving	在正常待机时, 交流电电梯由充电电池供电, 电梯将待机。 In normal power failure, the chargeable battery supplies the lift power. The lift drives to the nearest landing.
	防抱闸 Anti-resistance	当电梯轿厢到达三个楼层时, 为减少不必要操作, 轿厢内已登记的楼层将全部注册。 When the lift reaches three floors, to reduce unnecessary operations, the registered callings in the car will be registered.
	提前开门 Open the door in advance	完全注册乘客, 乘客在步行, 电梯将提前开门。 It completely accords with distance principle with no waiting in the leveling. It greatly enhances the travel efficiency.
	直梯停靠 Direct parking	当电梯轿厢到达三个楼层时, 为减少不必要操作, 轿厢内已登记的楼层将全部注册。 When three or more same model lift groups are combined in use, the lift group can automatically choose the most appropriate response, to reduce the repeated (direct parking), reduce the passenger's waiting time and increase the travel efficiency.
	群控功能 Group control function	当乘客在轿厢内, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 When the passenger is in the car, please respond to the requested floor through the computer response. In this way, it reduces the passenger's waiting time to the greatest extent and enhances the travel efficiency as well.
	门区控制 Door control	当乘客在轿厢内, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 When the passenger is in the car, please respond to the requested floor through the computer response. In this way, it reduces the passenger's waiting time to the greatest extent and enhances the travel efficiency as well.
	上班高峰服务 On-duty peak service	在上班高峰时段, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 During the peak off-duty time, special transport from the home landing is extremely busy. The lifts are continuously dispatched to the home landing to ensure safety on-duty peak service.
	下班高峰服务 Off-duty peak service	在下班高峰时段, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 During the peak off-duty time, special transport from the home landing is extremely busy. The lifts are continuously dispatched to the home landing to ensure safety on-duty peak service.
	开门时间延长 Extend the door opening time	轿厢在楼层停靠时, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 When the lift stops at a floor, passengers can press the call button to extend the door opening time.
	轿厢到达铃声 Car arrival gong	轿厢到达楼层时, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 When the lift arrives at the floor, the lift door keeps open for a certain period of time.
	语音播报 Voice announcement	在正常待机或运行状态下, 利用语音播报告知乘客相关信息。 When the lift is normally waiting, stop or running, voice announcement informs the passengers about the relevant information.
	轿厢操作指南 Call assistant operation	用于乘客在轿厢内操作电梯, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 It is used in the large landing height lift of the lift with crowded passengers to facilitate more and more passengers can use the car.
	残疾人操作指南 Call assistant operation	用于帮助行动不便的乘客在轿厢内操作电梯, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 It is convenient for the wheelchair passengers and those who have vision problems.
	智能语音呼叫服务 Intelligent calling service	通过专用语音输入设备, 乘客可以在轿厢内语音呼叫楼层。 The call command in lift-shaft calling can be issued or controlled through special intelligent input.
	IC卡控制 IC card control	乘客使用IC卡刷卡, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 All (parted) landings can only input car commands through IC Card after the authorization.
	远程监控 Remote monitor	通过远程监控摄像头, 可实时监控轿厢运行状况, 以便及时处理。 Through remote monitoring camera, you can monitor the car conditions.
	远程控制 Remote control	通过操作终端(可选项), 可远程修改轿厢运行参数。 The call command in lift-shaft calling can be issued or controlled through special intelligent input.
	摄像头功能 Camera function	摄像头安装在轿厢内, 可实时监控轿厢运行状况, 以便及时处理。 The camera is installed in the car to monitor the car conditions.

	应急车灯 Emergency car lighting	得电时, 自动打开应急车灯。 Emergency car lighting automatically activated once power fails.
	五向对讲 Five-way intercom	通过对讲, 可以呼叫、接听、电梯机舱、井道通话、查看楼层及门区。 Through intercom, you can call, answer, elevator machine room, shaft and monitor doors through walkie-talkie.
	紧急返回 Emergency return	如果电梯在运行中, 乘客按下紧急返回按钮, 所有呼叫将被取消, 电梯将直接返回楼层。 If you start by touch in main landing or monitor shaft, all the callings will be canceled. The lift directly and immediately drives to the designated rescue landing and automatically opens the door.
	节能运行 Energy saving	当乘客在轿厢内没有发出任何指令时, 轿厢将在到达楼层前自动停止, 等待乘客指令。 If there is no calling or command signal within the stipulated time, the car fan and lighting will be automatically closed in order to save the energy. 节能运行模式, 乘客在轿厢内没有发出任何指令时, 轿厢将在到达楼层前自动停止, 等待乘客指令。 The lift can be called to resume working after finishing the service through the touch switch and automatically waits the passengers.
	节能待机 Energy saving	在正常待机时, 交流电电梯由充电电池供电, 电梯将待机。 In normal power failure, the chargeable battery supplies the lift power. The lift drives to the nearest landing.
	防抱闸 Anti-resistance	当电梯轿厢到达三个楼层时, 为减少不必要操作, 轿厢内已登记的楼层将全部注册。 When the lift reaches three floors, to reduce unnecessary operations, the registered callings in the car will be registered.
	提前开门 Open the door in advance	完全注册乘客, 乘客在步行, 电梯将提前开门。 It completely accords with distance principle with no waiting in the leveling. It greatly enhances the travel efficiency.
	直梯停靠 Direct parking	当电梯轿厢到达三个楼层时, 为减少不必要操作, 轿厢内已登记的楼层将全部注册。 When three or more same model lift groups are combined in use, the lift group can automatically choose the most appropriate response, to reduce the repeated (direct parking), reduce the passenger's waiting time and increase the travel efficiency.
	群控功能 Group control function	当乘客在轿厢内, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 When the passenger is in the car, please respond to the requested floor through the computer response. In this way, it reduces the passenger's waiting time to the greatest extent and enhances the travel efficiency as well.
	门区控制 Door control	当乘客在轿厢内, 乘客按下任何楼层按钮, 电梯将直接到达该楼层。 When the passenger is in the car, please respond to the requested floor through the computer response. In this way, it reduces the passenger's waiting time to the greatest extent and enhances the travel efficiency as well.

Custom-made
exclusive repair
and maintenance plans
定制专属维保方案

LINGDIAN Elevator offers exceptionally sweet services! It sets up nation-wide branches, repair and maintenance networks all over the country. According to the product characteristics and customer conditions, it elaborately has a set of exclusive elevator repair & maintenance plan custom-made for each user. System quickly recognizes product identification with 24-hour all-weather preparation. It frees you from any worries. LINGDIAN offers sincere, considerate, effort-saving, trustworthy, patient nanny services for you.

从某种意义上说, 电梯维保服务可以体现企业的用心程度。凌电电梯有限公司在全国各大城市, 设立分公司, 建立维修及售后服务网络, 为客户提供定制化的维保方案。根据产品特点及客户情况, 为客户提供定制化的维保方案。系统快速识别产品, 24小时全天候准备。让您从任何烦恼中解脱出来。凌电电梯为您提供真诚、体贴、省心、值得信赖、耐心周到的保姆式服务。

- 诚心 Sincere**
我们的一切服务发自内心, 为客户提供最贴心的维保方案, 解除后顾之忧。
We wholeheartedly serve vast clients. We have repair and maintenance plans custom-made for our customers. It frees them from any worries.
- 省心 Effort-saving**
优越是我们专业的专业素养, 快速识别产品身份系统, 全国服务热线24小时全天候为您服务。
"Superior and effective" are our professional qualities. System quickly identifies products. Our nation-wide 24-hour service hotline supplies you with all-weather fast services.
- 贴心 Considerate**
我们重视您, 满足您一切有关产品服务的需要。无论何时何地, 我们都为您提供最贴心的服务。
We are considerate for you. We satisfy all of your requirements regarding product services. Whenever and wherever you are, we always provide you with our most sincere services.
- 放心 Trustworthy**
除了优质的产品, 我们更有广泛且全球覆盖的售后服务网络。真正让您省心、放心、安心。
Apart from the most superior products, we have nation-wide branch coverage. Repair and maintenance networks are wide-spreading all over the country. We effectively handle all problems for you!
- 耐心 Patient**
凌电对每一个客户, 都提供100%的耐心。从售前咨询到售后维保, 我们始终以您为中心。每一步, 我们都将带给您属于凌电品牌的优质服务。
LINGDIAN is 100% patient to each client. From before sale individual custom-made to installation, repair and maintenance, for every step forward, we take you exclusively superior service of LINGDIAN brand.
